

LET IN

2006

THE MULTI-FUNCTIONAL ELECTRONIC COIN BOX

Advantages with Let In 2006

- Robust
- Durable and vandal resistant
- External and internal use
- Energy efficient
- Easy to use
- Easy to maintain
- Optional fee, different coins
- LED indication of engaged/vacant
- Safe coin deposit
- Can be connected to electrical appliances within the room

How does it work?

- The Let In 2006 accepts pre-set currencies, coins and tokens.
- A number of different currencies and coins types can be accepted simultaneously.
- The coin box calculates the payment. Upon correct fee payment, the door is unlocked.
- No change is given, which facilitates maintenance and increases the revenue.

Durability and Safety

- The Let In 2006 is specially designed to withstand tough external use on public toilet buildings, but can also be used for internal applications.
- The Let In 2006 is a robust, reliable product which can be installed into the wall.
- The coin box is finished as standard in black and beige, other colours on request.
